A NUCLEAR-FREE FUTURE? YES WE CAN!

Speaking are Carol Urner, Mary Olson, and Ellen Thomas.

Carol Urner (86) and Ellen Thomas will talk about current progress in the United Nations toward nuclear weapons abolition. Carol Urner and Ellen Thomas are co-chairs of the Disarm/End Wars Committee of the 101-year-old Women's International League for Peace and Freedom (US Section).

They are in the midst of a nationwide tour sharing the good news not just about international progress toward global nuclear weapons abolition, but also that there is a bill in the US Congress, HR-1976, called the "Nuclear Weapons Abolition and Economic and Energy Conversion Act," and asking for help in getting co-sponsors. See <http://prop1.org>.

They also support the shut down and clean up of the hundreds of uranium mines currently polluting scarce waters, mostly on Native American lands. (See <http://www.defendblackhills.org/>)

Ellen Thomas's passions are abolishing nuclear weapons and creating a clean energy economy, and we are currently promoting [HR 1976](#) in the House of Representatives, the Nuclear Weapons Abolition and Economic and Energy Conversion Act . We believe this is a bill for which the time has truly come. If we cannot move toward abolition of this most destructive and immoral of all humanly crafted weapons, what hope is there for either human survival or for the future of our amazing planet earth? We can also explore with you your approaches to local nuclear problems such as shutting down faulty nuclear power plants and responding to nuclear waste storage or transport that threatens your community.

Carol Urner's lifetime twin passions are demilitarization and human rights. On our spring journeys she would like to share from the exciting happenings internationally in both nuclear abolition and ending wars. She wants to be sure we can access and support the wonderful work facilitated by [Reaching Critical Will](#) staff at the United Nations. Carol was also a WILPF-US voting delegate at The Hague, so she brings with her gleanings from that experience as well. And she intends to share copies of A Global Security System: An Alternative to War. This is the publication of [World Beyond War](#), of which WILPF-US is a part. [We](#) have been asked to study it and submit our own analyses for the 2016 edition.

"We shall have to learn to use moral energy to put a new sort of force into the world and believe that it is a vital thing -- the only thing, in this moment of sorrow and death and destruction that will heal the world."

Pls share with friends....

Dear Congressman Price

The two greatest threats to mankind are climate change and nuclear war. I want you to take a strong role in preventing these catastrophes. Please cosponsor the Nuclear Weapons Abolition and Economic and Energy Conversion Act of 2015 (H.R.1976). It would move us toward compliance with Article VI of the M.P.T. The 2011 ratification of the New START treaty was an important step. H.R. 1976 is the crucial next step.

Sincerely,
Ruth Zolph, Chapel Hill, 27514

**PETITION TO THE LEGISLATORS OF THE NUCLEAR WEAPONS STATES
AND TO THE AMBASSADORS TO THE UNITED NATIONS**

Please support the "Nuclear Weapons Abolition and Economic and Energy Conversion Act," HR-1976 in 2015-16
Introduced into U.S. Congress every session since 1994, by DC Congresswoman Eleanor Holmes Norton

We, human beings threatened with and burdened by nuclear weapons, HEREBY call upon the LEGISLATORS of
ALL NUCLEAR POWERS to jointly codify the following commitments:

- (1) Disable and dismantle all nuclear warheads, and refrain from replacing them with any weapons of mass destruction (such as biological, chemical, or depleted uranium) at any time;
- (2) Use recent levels of nuclear weapons program resources to
 - (a) convert all nuclear weapons industry employees, processes, plants, and programs smoothly to constructive, ecologically beneficial peacetime activities, including strict control of all fissile material and radioactive waste pursuant to international agreement, and
 - (b) redirect those resources into human needs such as developing carbon-free, nuclear-free energy sources, health care, education, housing, agriculture and environmental restoration (for example, build solar panels and windmills instead of missiles and bombs);
- (3) Undertake vigorous GOOD FAITH effort to eliminate war, armed conflict, and all military operations;
- (4) Actively promote policies intended to induce all nations on earth to join in these commitments for peace on earth.

UNITED NATIONS AMBASSADORS, U.N. Plaza, New York, NY 10017, USA: PLEASE encourage ALL nuclear powers to PROMISE, "Yes, WE'LL GET RID OF ALL OUR WEAPONS OF MASS DESTRUCTION IF EVERYONE ELSE DOES." (Don't quit until the job is done!)
