

IT IS 80 YEARS SINCE THE ONLY NUCLEAR WEAPONS EXPLODED IN WAR DESTROYED HIROSHIMA AND NAGASAKI. Let them be the last.

Nuclear weapons are the most destructive, indiscriminate & inhumane weapons ever created. A single H-bomb can kill 100,000s of people, sicken many more, destroy a whole city and make a region uninhabitable for centuries, and that is just one nuclear weapon. A total of about 13,000 are currently ready to be used by the nine countries that own them.

Point your smart phone camera at this QR code to watch brief video of a Hiroshima bomb survivor speaking of her experience.

If a nuclear war happens it will lead to nuclear winter and civilization as we know it will end. **Please read the rest of this flyer to find out what YOU can do to end this whole nuclear era.**

WHAT CAN WE ALL DO?

- 1) Educate ourselves about the UN Treaty on the Prohibition of Nuclear Weapons (TPNW). Start with WILPF International's UN watchdog, **Reaching Critical Will** (reachingcriticalwill.org).
- 2) Ask our Senators to ratify the UN Nuclear Weapons Ban Treaty (TPNW) – at bit.ly/wilpfus-bantreatypetition.
- 3) Ask our Representatives to co-sponsor the “Nuclear Weapons Abolition and Conversion Act of 2025” in the U.S. House, HR-1888, see details at prop1.org.
- 4) Join WILPF women and others working to shut down aging and dangerous nuclear energy plants in your area, and to develop carbon-free, nuclear-free energy everywhere. See nirs.org and beyondnuclear.org.
- 5) Ask your city to join over 8,400 cities in the Mayors for Peace initiative to totally abolish nuclear weapons, see mayorsforpeace.org/en/
- 6) Learn how to move funding from nuclear weapons to climate change mitigation at warheadstowindmills.org

**HELP ELIMINATE THE *WHOLE*
NUCLEAR CHAIN WHICH HAS GROWN
AROUND NUCLEAR WEAPONS!**

To abolish nuclear weapons, we must abolish nuclear power. A nation that maintains nuclear power plants could use the resources to create nuclear weapons.

Nuclear power was developed in large part to convert uranium fuel to more powerful – and lethal – plutonium for use in nuclear weapons. In the process, however, dangerous radioactive nuclides are released into air, soil and water. Some, like plutonium 239, have a half-life of 24,000+ years, and even very small particles are dangerous to ingest.

Mining uranium leaves waste that pollutes soil and water, causing high levels of cancer in surrounding areas. Most uranium mining in this country is on Native American land. Many companies make no effort to clean up after themselves before they leave an area despite pleas, demands and legal efforts by affected tribes and organizations like WILPF. **We must STOP uranium mining** and safely remove the radioactive debris currently swirling around existing mines!

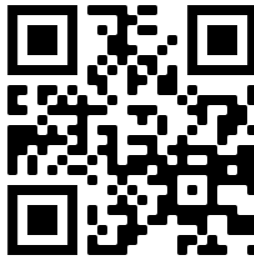

Disposal of nuclear waste is still a problem without a solution. We have not yet found safe ways to dispose of the accumulated nuclear waste from nuclear power plants or nuclear weapons production. These growing mountains of radioactive waste will eventually make this planet uninhabitable.

**HELP OUR GOVERNMENT
COOPERATE WITH OTHER NATIONS
TO ABOLISH NUCLEAR WEAPONS**

The United States initiated the nuclear era with bombings of **Hiroshima and Nagasaki**. Unfortunately, our government now can't unilaterally stop what it started. Our nation must listen to and work with other nations that rebel against being held hostage by nuclear weapons of the U.S., Russia or any other of the nuclear powers.

We also need to work with all other nations that today possess nuclear weapons – Britain, China, France, India, Israel, North Korea, Pakistan, and Russia – plus NATO and Pacific allies where U.S. nuclear weapons are stored – to end the **WHOLE** nuclear era.

Destroying nuclear weapons and resolving the problems of nuclear waste, power and uranium mining will require the cooperation of all governments, and also from corporations now profiting from the nuclear industry. The alternative is almost certainly the extinction of the human race.

**HELP PROMOTE LEGISLATION
REQUIRING U.S. LEADERSHIP TO
ABOLISH NUCLEAR WEAPONS
and Reduce Military Budgets**

Support the one bill and two resolutions mandating such leadership introduced in the House of Representatives in 2025:

HR-1888, the Nuclear Weapons Abolition and Conversion Act - supports the TPNW and provides for global nuclear weapons abolition and conversion of the war economy to environmental restoration and carbon-free, nuclear-free energy, and retool arms factories and retrain workers.

H.Res-317 - calls on the United States to actively pursue a world free of nuclear weapons as a national security imperative and to adopt seven comprehensive policy prescriptions for preventing nuclear war.

H.Res-100 - expresses support for the continued value of arms control agreements and negotiated constraints on Russian and Chinese strategic nuclear forces. The U.S. must avoid spending \$1.7 Trillion on modernizing our nuclear weapons enterprise. Our tax money fuels this dangerous arms race and we must legislate against this military boondoggle.

House Hotline: 202-225-3121

Call your Senators and ask them to introduce HR-1888 into the Senate:

Senate Hotline: 202-224-3121
